2. Do not touch hot surface. Use handles or knob.
3. To protect against electrical shock, do not immerse cord, plug or appliance in water or other liquid. See instructions for cleaning.
4. Close supervision is necessary when appliance is used by or near children.
5. Do not use appliance unattended.
6. Unplug from outlet when not in use and before cleaning. Turn control knob to OFF before unplugging. Allow to cool before putting on and taking off parts.

# SAVE THESE INSTRUCTIONS

This appliance is for **HOUSEHOLD USE ONLY**.

No user-serviceable parts inside. Do not attempt to service this product. A short power supply cord is provided to reduce the risk resulting from becoming entangled in or tripping over a longer cord.

An extension cord may be used when care is exercised in its use. When an extension cord is used the marked electrical rating of the extension cord shall be the same or more than the rating of the burner. The extension cord should be arranged so it does not drape over the counter top or table top where it can be pulled on by children or tripped over unintentionally.

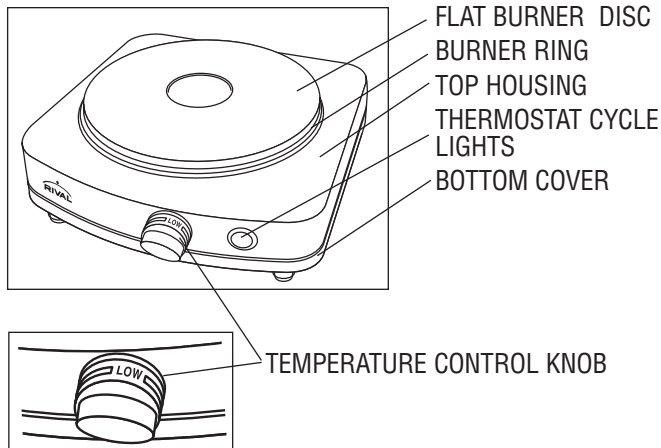

## **POLARIZED PLUG**

This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit into a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician.

Do not attempt to modify the plug in any way. If the plug fits loosely into the AC outlet or if the AC outlet feels warm, do not use that outlet.
