**SAVE THESE INSTRUCTIONS**

This appliance is for **HOUSEHOLD USE ONLY**. No user-serviceable parts inside. Power Unit never needs lubrication. Do not attempt to service this product. A short power supply cord is provided to reduce the risk resulting from becoming entangled in or tripping over a longer cord. An extension cord may be used with care. However, the marked electrical rating of the extension cord should be at least as great as the electrical rating of the fondue. The extension cord should not be allowed to drape over the counter or tabletop where it can be pulled on by children or tripped over intentionally.

Use only model ETC-1 temperature control probe.

**POLARIZED PLUG**

This appliance has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

**KNOW YOUR FONDUE**
PREPARING YOUR FONDUE FOR USE

- Wash FONDUE POT, FORK HOLDER and FORKS in hot, soapy water. Rinse thoroughly and dry. CAUTION: Do not wash or immerse the TEMPERATURE CONTROL PROBE.
- Before using the skillet for the first time, condition the non-stick cooking surface by lightly brushing the cooking surface with vegetable oil. Heat, uncovered, to 300°F. Turn to “OFF” and cool completely. Wipe away excess oil.

HOW TO USE YOUR FONDUE

1. Set FONDUE POT on a flat, dry, heat-resistant surface.
2. Set TEMPERATURE CONTROL PROBE to “OFF” and plug probe into TEMPERATURE PROBE GUARD. Plug cord into 120 Volt AC outlet.
3. Preheat if necessary (follow directions in recipe being used). Turn TEMPERATURE PROBE DIAL to desired temperature. INDICATOR LIGHT will go off when selected temperature is reached. During cooking, the light will cycle “ON” and “OFF” to indicate that the temperature is being regulated.
4. Use the FONDUE FORKS to spear foods for cooking or dipping. Be careful not to scratch the non-stick surface when placing FORKS in FONDUE POT. NOTE: When ingredients are stirred in the FONDUE POT, use plastic, nylon or wooden utensils to prevent damage to non-stick surface.
5. After cooking or serving, turn TEMPERATURE PROBE DIAL to “OFF”. Unplug cord from wall outlet. After FONDUE POT has cooled, remove TEMPERATURE CONTROL PROBE.

CAUTION: Extreme caution must be used when moving fondue containing hot oil or other hot liquids. It is not recommended to cook with hot oil when children are present.
1. Be sure FONDUE POT is completely dry before filling with oil.
2. Place FONDUE POT on a flat, dry, heat-resistant surface. CAUTION: Some spattering of oil will occur during cooking.
3. Fill FONDUE POT with 3 1/2 cups of vegetable oil. NOTE: Do not use more than 3 1/2 cups of oil. Do not use butter, margarine, lard or shortening in place of vegetable oil. Never add water or any other liquid to oil.
4. Place FORK HOLDER on top edge of FONDUE POT. The coated side should be up. Use to hold FONDUE FORKS while cooking oil. CAUTION: Do not use more than 8 FONDUE FORKS at one time when cooking in hot oil. The fork holder may also prevent some of the spattering during cooking. NOTE: Do not place a cover over the FONDUE POT when heating oil or cooking in oil.
5. Remove ice crystals or excess water on food before cooking in oil by blotting with a paper towel.
6. After cooking, turn TEMPERATURE PROBE DIAL to “OFF”. Allow FONDUE POT and FORK HOLDER to cool completely before moving or cleaning.

3. Wash FONDUE FORKS in hot, soapy water or automatic dishwasher. Rinse and dry thoroughly.
4. In time, the non-stick surface may discolor. This is normal and will not seriously alter the release properties.
